Jessica,

We withdraw all CBI claims on the two 8(d) submissions.  
The original CBI copies can be made into the public copies.

Regards,

**Lee French**

Excellent. If there are no remaining CBI claims in the submissions after withdrawing the chemical identity claims, we can simply use the versions that were originally CBI and relabel them. If you're maintaining any claims, I'd ask you to provide new sanitized copies so that we are all clear on which claims are being maintained.

Hi Jessica,

We are willing to withdraw the chemical identity CBI claim in the two TSCA 8(d) submissions.  
Is there any additional action needed to make the withdrawal?

Regards,  
Lee

Hello, Lee,

Any word on this yet?

Jessica

Hi Jessica,

I would appreciate it if you could forward the sanitized copies.  
I will review the claims and we can decide how to proceed from there.

Thanks!  
Lee

**Subject:** [EXTERNAL] CBI claims in '93 TSCA 8(d) reports

Hello, Lee, I hope you are well.

EPA has a pending press inquiry/request for two 8(d) reports that EPA received from DuPont in the early 90s, which is going to require a CBI review and determination on the documents unless DuPont can confirm the CBI claims for chemical identity are now withdrawn. I wonder if you can talk with me about these claims? (Or refer me to someone else at your company that I can talk with about this.) The chemical has at least a couple of names, but is identified by CASRN 95-53-4. It may have been a confidential Inventory substance at some point, but it has been on the public portion of the Inventory since at least 1986, when it was added to the 8(d) reporting list. Non-CBI 8(e) reports were received for this substance from DuPont around the same time as the 8(d)s. I can send you sanitized copies of the reports under separate cover if that will help you to identify the original submissions from your end.

Thank you for looking into this,

Jessica
